General Information

- You must use the basic PowerPoint template provided by Dr. Cooper.
- All font sizes must be a minimum of 24 point (see template for details).
- Fully acknowledge sources of all figures (if not original).
- Convert PowerPoint presentation to a PDF document – NOTE: These PDF documents must be received by Dr. Cooper via email no later than noon the day before your scheduled presentation – if not received by then, your presentation grade will be reduced by 5%.
- On the day of your scheduled presentation, bring your PowerPoint presentation to class as directed by Dr. Cooper.
- Your presentation will be no more than 15 minutes long with an additional 5 minutes left for a question/answer period (ALL STUDENT AUDIENCE MEMBERS ARE EXPECTED TO ASK QUESTIONS!)
- At least one member of a group must give the presentation, although multiple presenters are encouraged. However, ALL team members are expected to contribute to the presentation’s content.
- Provide Dr. Cooper an electronic copy of 5 multiple-choice questions (with the correct answer noted) that cover the topic you are presenting. These questions should be moderately challenging!! They will be considered for use as future examination questions.

Composition of PowerPoint Presentations

Again, you must use the basic PowerPoint template provided by Dr. Cooper.

- 24 slides maximum (counting references)
- Title Slide – 1 slide only
- Name of Disease Slide I (with descriptions of alternate names for the disease as well as a the names/taxonomy of the etiological agent) – 2 to 4 slides suggested
- Name of Etiological Agent Slide (with descriptions of etiological agent, geographical distribution, life cycle, epidemiology, and pathogenesis) – 4 to 5 slides suggested
- Name of Disease Slide II (with descriptions of diagnosis/histopathology, clinical manifestations, and treatment/disease management) – 4 to 5 slides suggested
- Significant Case Reports Slide (description of 1 or 2 case reports published from 2009 to the present) – 3 to 5 slides suggested
- References Slide – up to 3 slides maximum (see style below)
  
  Textbooks and published reviews are acceptable, but you must use at least three primary journal articles as references. The latter should be dated 2006 or newer. Qualified internet sources are also acceptable (NOTE: Wikipedia and similar web sites are NOT qualified resources. If you have questions regarding an internet site, please see Dr. Cooper.)

**Reference Citation Style** *(taken from Medical Mycology)*

- **Journal article:**
  
  Author AB, Author CD, Author EF, et al. [if six or more] Title of paper. *J Title Abbrev* 1995; 00: 000-000.

  If the title is in a language other than English, the authors should provide the English translation and the name of the original language within a bracket following the citation.

- **Book chapter:**
  
  Author AB, Author CD, Author EF, et al. [if six or more] Chapter title. In: Editor AB, Editor CD, eds. *Book Title With Initial Uppercase Letters* (as indicated here and in italic font), 5th edn. Place: Publisher, 1995: 000-000.

- **Book:**
  
  Author AB, Author CD (eds). *Book Title With Initial Uppercase Letters* (as indicated here and in italic font), 5th edn. Place: Publisher, 1995.

- **Conference proceedings/Supplements:**
  

- **Journal article on the Internet:**
  

- **Monograph on the Internet:**
  

- **Web site:**
